

FastTrack – Foundation Skills Programme

The Adviserlink Level 5 Certificate in Financial Services includes eight courses (four compulsory plus four electives).

The four compulsory foundation units of the Certificate in Financial Services (Level 5) provide the pre-requisite generic knowledge and advice process skills required before specialising as an Adviser. This programme is usually delivered over four courses, however is available as an accelerated FastTrack programme for experienced advisers only (*a minimum of five out of the last eight years working as an adviser*). This programme includes an abridged workshop and self directed distance education delivery.

The FastTrack Foundation Skills involves self evaluation and directed review of learning required before attempting the competency assessments. It also involves a 3-day skills and assessment based workshop. A delivery and assessment outline of the programme is provided below:

Please Note: Advisers new to the industry (*less than 5 out of the last eight years working as an adviser*) must complete all four of the level 5 certificate compulsory courses individually.

If you require further clarification as to registration eligibility, contact Adviserlink to enquire as to requirements.
